Cenan Holland / Tech-Rider & Hospitality

Stage Plot

ATTENTION: The house mixing desk and artist's work area must be kept FREE of drinks and should have a height between 95cm and 105cm.

Setup Requirements

OPTION DJ-Set / Digital Setup

- 3 x Pioneer CDJ-3000 or 2000 NXS2 (linked)
- 1 x Pioneer V10 (preferred) or A9 is okay
- 2 x Stereo monitors with independent volume control via the DJ mixer
- Please ensure the record out from the mixer is working (the artists might bring a recording device)

Please take care that the venue procures and provides at their expense the following equipment. No exceptions or alternatives are accepted unless otherwise specified.

Sound Check

- The artist or their management will decide a time for a 30-minutes sound check prior to the performance if given. Further details may be communicated in prior to the confirmed show.
- A technician provided by the venue will be available to assist setup and testing of all equipment.
- The artist will be able to perform their sound check with PA and monitoring at full operational level.

Monitor System

A high-powered monitor system, that can achieve and maintain an undistorted sound pressure level of 120dBA from 35hz to 18Khz, will be required, 1 left and 1 right, at chest to head height.

P.A. System

The venue is to provide, at their expense, a complete PA system including a monitor system that must be fully operational and suitable for the size of the venue and audience. It must provide at least 110dBA in the center of the venue, without any distortion from 30Hz to 18KHz. A professional and qualified monitor and/or FOH engineer must be available during the sound check and performance to make adjustments at the artist's request if needed.

Hotel specifications

- 4 Star Room with 1 King bed within 1 mile of the venue
